Portfolio: mantu1316-code.github.io/Portfolio/

CAREER OBJECTIVE

To secure an internship in Information Security where I can apply my foundational knowledge of cybersecurity and networking to real-world challenges, while enhancing my skills in threat analysis, vulnerability assessment, and security operations.

ACADEMIC QUALIFICATION

Examination	Board/University	Year	Marks / Division
B.Tech (CSE)	GNSU, Sasaram	2023-2027	Pursuing
12th	Bihar Board	2021	69.2% (1st Div)
10th	CBSE Board	2019	61.8% (1st Div)

TECHNICAL SKILLS

- **Programming:** C, C++, Python (Basic), Java (Basic)
- **Cybersecurity:** WiFi & Bluetooth Vulnerability Testing, Packet Sniffing, De-authentication Attacks, CIA Triad, Common Attack Vectors (Phishing, Malware, DoS)
- **Networking:** Basic understanding of IP Addressing, DNS, OSI Model, ESP32 NAT Routing, and Firewalls
- **Web Technologies:** HTML, CSS, JavaScript
- **Core Computer Science:** Data Structures & Algorithms, Operating System Customization, Problem Solving
- **AI/ML:** Machine Learning Concepts, Data-Driven Predictive Modeling

PROJECTS

1. Personal Technical Portfolio Website [\(Live Link\)](#)

- Designed and structured a multi-page web portfolio featuring dedicated modules for technical projects, core qualifications, and experience.
- Utilized a professional flex-box responsive structure across web pages to streamline user interface presentation.

2. HireIQ

- Developed an interactive web platform focusing on clean UI design and seamless user navigation.
- Implemented core web technologies (HTML, CSS, JS) to ensure a responsive and efficient front-end experience.

3. Diabetes Prediction using AI/ML

- Engineered a functional predictive system utilizing Machine Learning algorithms and Python to analyze health metrics.
- Developed an interactive, user-friendly frontend web interface using the Streamlit framework with customized UI styling.

4. Logoipsum Template

- Designed and built a fully responsive landing page template utilizing modern web development practices.
- Focused on structured layout formatting, cross-browser compatibility, and modern UI/UX design principles.

5. Tic-Tac-Toe Game

- Programmed a classic interactive web-based game using HTML, CSS, and JavaScript.

- Implemented core functional logic for player turn management, winning pattern detection, and match resets.

WORK EXPERIENCE

Fresher — Eager to gain hands-on industry experience in Information Security and Core Networks.

STRENGTH FACTORS

- Quick Learner with strong technical problem-solving skills
- Good practical understanding of Cybersecurity & Hardware/Networking fundamentals
- Team player with effective communication skills
- Self-motivated and eager to work in critical infrastructure security

PERSONAL DETAILS

- **Father's Name:** Anil Kumar Singh
- **Nationality:** Indian
- **Date of Birth:** 01/05/2002
- **Languages:** Hindi, English
